Competition

Commercial Union.
Your hardest competitor is not the man who underbids you, nor is he the man who underbuys you, but he may do both of these. The competitor you need most to fear is the man who uses brains plus energy plus system to keep things moving all along the line—always. Competition is no longer so much a matter of price as it is a matter of brain.

Branching Out

The style of the firm of Cloninger & Porter, 49 West Fifth avenue, Columbus, O., has changed to that of Cloninger & Bridges. Colonel Samuel P. Bridges of this city having bought the half interest of the junior member. This established and popular firm manufactures all kinds of flavoring extracts, syrups, root beer, cola syrups, ginger ale and lemonade. Colonel Bridges' many Kentucky friends wish him good luck and plenty of it.

BAPTISTS HOLDING BIG MEETING

MADISONVILLE, KY., November 14th.—Today the general association of Kentucky Baptists devoted its session to education, Judson centennial and woman's work. Theological education was considered yesterday and Prof. Robertson of Louisville, asked for \$2,500 to aid students. A collection of \$3,000 was taken, the largest in the history of the seminary. There are now 275 students and fifty more are coming, making the seminary's greatest attendance. Of these forty-two are from Kentucky.

ARMY OF HUNTERS

In Fields and Woods Today In Mason County

Four Hundred and Fifty Licenses Issued By County Clerk Owens

The march of the victorious Bulgarians in Turkey is somewhat similar to the invasion of the intrepid hunters today in Mason county in quest of the elusive game, and rabbits, quail and other birds will be slain by the thousands.

Yesterday County Clerk Owens issued sixty licenses bringing the total up to four hundred and fifty. It should be kept in mind that every hunter must carry his license with him. Should a Game Warden happen to pounce upon him and find him without the necessary papers a heavy fine is the penalty.

It is to be hoped that there will be no serious or fatal results from the day's sport and that the tired hunters will return home tonight loaded down with game and well satisfied with their day in the field and woods with gun and dogs.

BUILDING OF SCHOOLS

Prof. Hamlett Makes Flattering Statement of Work That Has Been Done

The expenditure of a quarter of a million
dollars in the erection of new school buildings
throughout Kentucky since the first of the
present year and an increase of 25% in the
school attendance, exceeds all previous records
in the history of the state, according to a
statement made by Professor Barksdale
Hamlett, State Superintendent of Public In-
struction. He said the increased attendance
is due to the stringent compulsory educational
law passed by the last Legislature, and its
strict enforcement by the officers in the vari-
ous counties in which it had been violated.

Prof. Hamlett said the increase in buildings
was fully 200% over preceding years, and that
at the present time every county in the state
with the exception of two can boast of a high
school, and that in a short time schools of a
similar nature will be built in those counties.

Shortly after he assumed the duties of the
office to which he was elected last year Prof.
Hamlett began to draft laws to be presented to
the Legislature for consideration, and after a
hard campaign he succeeded in getting most
of the measures on the statute books and as a
result education has been given a decided
boost in Kentucky. His work has met with
the approval of the Woman's Clubs throughout
the state, all of which are taking an active
interest in educational work at the present
time.

HELP THE KIDNEYS

Proof in a Maysville citizen's statement.
Lang Stevens, Maysville, Ky., says: "I can
recommend Doan's Kidney Pills to everyone
who suffers from backache and kidney weak-
ness. My kidneys were out of order and I
had backache, attended with pain which ex-
tended into my kidneys. The kidney secretion
was irregular. Doan's Kidney Pills had
been used in my family so I gave them a trial.
They made me entirely better."

MAP OF THE WORLD

First Sheet Issued of United States Section of Mil- lionth Scale Map

The first sheet of the United States
portion of the international map of
the world has just been issued by the
United States Geological Survey and
includes Rhode Island and portions
of New York, Connecticut, Massachu-
setts, New Hampshire, Maine and
Nova Scotia. This world map, re-
cently undertaken by agreement
among the leading nations, is being
prepared on the scale of 1 to 1,000,000
—that is, 1 linear inch on the map
represents 1,000,000 inches, or nearly
16 miles, on the earth's surface. The
map is to consist of about 1,500 sheets
covering all the land areas of the
world, each sheet representing 4 de-
grees of latitude and 6 degrees of
longitude. The sheets will be num-
bered according to a scheme covering
the whole world, and the symbols in-
dicating the natural features and the
works of man will be uniform on all
the sheets. It has been the dream of
geographers for many years to have
an international map scientifically
constructed on a uniform scale, and
the work is now under way. The
maps at present available, printed on
all sorts of scales, in geographies and
atlases, where the most important
areas are allotted the greatest space,
inevitably lead to misconceptions as
to the relative size of the different
countries. Thus it may not be gen-
erally realized that the area of Scot-
land and Ireland together is less than
any one of our five largest States; or
that Texas is much larger than
France, or that the New States of New
Mexico and Arizona are each larger
than the combined areas of the Balkan
countries of Bulgaria, Roumania,
Serbia and Montenegro, now engaged
in war with Turkey; or that Argen-
tina is more than three times the size
of the thirteen original States. With
an international map on a uniform
scale the study of comparative geo-
graphy will become far more fascina-
ting and instructive.

The sheet just issued, which is
numbered "North K 19" and known
as the Boston sheet, is printed in six
colors and shows all the principal
cities and towns, railroads, main
wagon roads, and other works of man,
and the rivers, lakes and other water
features. The different depths of the
ocean are denoted by contour lines,
or "depth curves," and various
shades of blue, and the relief, or
altitude of all parts of the land sur-
face, by contour lines and color gra-
dations, from pale green to brown,
a different tint being used for each 100
meters of altitude. The sheets for the
the completed millionth map of the
world would if combined cover an
area about 150 feet by 75 feet or a
globe 40 feet in diameter; the United
States portion would be about 16 feet
in width, a very large wall map. The
Boston sheet is 24 by 25 inches and
this will be the size of most of the
United States sheets. The maps of
areas at the far North covering 6 de-
grees of longitude will of course be
much narrower than those of areas
covering 6 degrees at the equator.

At the present rate of progress the
United States portion of the inter-
national map should be finished
within eight or ten years. It will be by
far the best map of the country in
existence.

Carried \$192,000 Insurance

Cornelius Brerly, 27, a prominent business
man of Homestead, Pa., who was killed by a
train at Clayville, Pa., carried \$192,000 worth
of life insurance payable to his wife and
to his parents. As nearly all this amount
was taken out a month or two ago, the in-
surance companies holding the policies will, it
is learned, make the usual investigation to
determine how he came to his death.

TENNESSEE LEADS

In Number of Deaths From Tuber- culosis—4,000 Die Annually

Tennessee stands at the top of the list of
states with the most deaths from tuberculosis.
About 4,000 persons die annually from
tuberculosis in Tennessee. There are at the
present time 20,000 persons sick with tuber-
culosis in the state.

Economic loss to Tennessee of \$32,000,000
annually is the estimate of deaths by tuber-
culosis. There are more deaths from tuber-
culosis in Tennessee than from smallpox,
scarlet fever, measles, bronchitis, diphtheria,
typhoid, the whooping cough and pneumonia.

Pains All Over!

"You are welcome," says Mrs. Nora Guffey, of Broken
Arrow, Okla., "to use my letter in any way you want to,
if it will induce some suffering woman to try Cardui. I had
pains all over, and suffered with an abscess. Three phys-
icians failed to relieve me. Since taking Cardui, I am in
better health than ever before, and that means much to me,
because I suffered many years with womanly troubles, of
different kinds. What other treatments I tried, helped me
for a few days only."

TAKE CARDUI The Woman's Tonic

Don't wait, until you are taken down sick, before tak-
ing care of yourself. The small aches and pains, and other
symptoms of womanly weakness and disease, always mean
worse to follow, unless given quick treatment.

You would always keep Cardui handy, if you knew
what quick and permanent relief it gives, where weakness
and disease of the womanly system makes life seem hard
to bear. Cardui has helped over a million women. Try it.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. SERIOUS MALADY

Affects Twenty Per Cent. of Prisoners in Kentucky, Says Commissioners.

LOUISVILLE, Ky., November 14th.—Statistics gathered by the Board of Prison Commissioners disclose the fact that 20 per cent. of the prisoners in the Penitentiaries of Kentucky are afflicted with one of the most serious maladies known to medical science. One hundred men now in the prisons need immediate medical attention, according to a statement issued by the commissioners.

PARCELS POST

Kentucky Map to Be Issued December 15th

The Postoffice Department announces that by December 15th it will have prepared maps of the fourth zone of the parcels post system, showing the rates from all Kentucky points to points elsewhere in the United States and to each other.

This map will be distributed as widely as citizens of the fourth zone desire, and will hang in every Postoffice, so that the officials can tell at a glance how much postage is required for packages of certain weights between points in the fourth zone and other places in the United States.

To give an idea of the cost of sending parcels through the mails under the new system, the department stated that a 10-pound package can be sent from Louisville to Washington for about 60 cents.

Each corner drugstore will be permitted to lay in the special stamps required, and prospective shippers in neighborhoods distant from postal stations can take their parcels to the drugstore and there have it weighed, stamped and sent on its journey.
